To Whom It May Concern,

I am searching for a job opportunity that would provide insight and experience in the career field of supply chain management, focusing on the engineering field. I would like to gain experience as I study about the analytics and characteristics of the position itself.

I am an analytical, detail oriented person who focuses on organization. I constantly challenge myself to gain better understanding of the tasks I am given and improve my efficiency . Much of my experience has helped me to learn about customer satisfaction, a really important role in supply chain careers, and how to work as a team player. I have also gained experience while volunteering at my local church regarding ways to find efficient methods to help several communities. I consider my skill set of having learned many languages and understanding as well as implementing concepts of supply chain management makes me the ideal candidate for the job position offered at your company.

Thank you in advance for taking the time to consider me as a potential candidate and addition to your company. Please feel free to contact me at your earliest convenience at either my email addy.cano@hotmail.com or my number 248-558-0279 according to your preference.

Sincerely,

Addy Kristel Cano
